

IMPERIAL MILLWORKS

Product Guide

CABINETRY

Overview & Box Construction

Imperial Millworks has developed a premier construction method for all of its luxury woodworking products. All cabinets are constructed using processes backed by industry veterans and standards. Features include:

- **Frameless (Full Overlay) Construction**
 - Imperial Millworks uses an all $\frac{3}{4}$ " plywood frameless construction method. This allows us to maximize the interior space of our cabinets, along with creating an elegant and seamless cabinet design.

- **Fully Custom Designs and Layouts**
 - There are virtually no limits to the level of customization with Imperial Millworks. All boxes, interior components, and most drawers are manufactured in-house using state-of-the-art equipment and software. Whether you want a 7- $\frac{1}{2}$ inch four-drawer base cabinet or an 8-foot wall oven cabinet with overhead storage, we've got you covered.
- **Complete $\frac{3}{4}$ " Birch Plywood Case**
 - We use a premier $\frac{3}{4}$ " birch ply for all components of our case assembly. All interior pieces are UV coated creating a clear, durable finish that is tough, resistant to scrapes, chips, and most cleaning solutions.

- **Complete ½” Baltic Birch Dovetail Drawers & Trays**
 - Our drawer and tray boxes are made of premium imported Baltic birch to provide a unique, luxurious aesthetic to your cabinet design. They are hand-sanded and sprayed with clear varnish for protection and durability.
- **Conformat Screw Assembly**
 - Conformat screws allow for a clean, and tough assembly of our cabinetry. Combined with our box construction and high-quality materials, conformat screws make Imperial Millworks cabinets the toughest in the business.
- **Blum® BLUMOTION Soft Close Hinges & Drawer Slides**
 - Blum® is considered the premier brand for hinges and drawer slides. All of our cabinets come with full-depth, full-extension, and soft-close hinges/drawer slides.
- **Premium Cabinet Doors, Drawer Fronts, & Panels**
 - All of our doors, drawer fronts, and panels are built using the highest-level of premium materials available on the market. Each component is sanded to perfection and finished to furniture-grade to ensure quality and aesthetic.
- **Made in The USA with U.S. and Imported Materials**
 - All Imperial Millworks cabinets are manufactured and assembled in the United States using a combination of U.S. and imported materials.

Doors, Drawer Fronts, & Panels

- **Painted MDF Shaker, Raised Panel, and Flat Panel**
 - Using top-tier CNC machinery, Imperial Millworks offers a fully customizable line of MDF doors, drawer fronts, and panels. We offer all styles of doors from classic shaker to unique raised panel designs. Be free to design your kitchen with custom MDF doors and paint colors.
- **Stained & Painted Wood Shaker & Raised Panel**
 - Wooden cabinet doors, drawer fronts, and panels have been and continue to be a staple in homes across the country. We offer a variety of hardwood doors available in a multitude of species and finishes.
- **Exotic Flat Panel**
 - Sometimes painted or stained cabinets simply don't meet the needs of a project. Imperial Millworks offers best-in-class flat panel doors, drawer fronts, and panels with exotic finishes such as: non-natural wood, high gloss, earthy, and other unique finishes.
- **Glass Inserts**
 - All Imperial Millworks cabinet doors are available to be built for glass inserts. All glass inserts are made-to-order and can be customized with a variety of materials.

Hardware

Imperial Millworks has partnered with premium hardware brands like IMEX and Build.com to offer our customers a wide variety of quality cabinetry hardware.
